**The Only Software A Jeweller Needs!**

## Operational Automation For Business Transformation!

The power of automation rids a jeweller of his daily operational worries, which in a way relieves him from his biggest burden.

- End to manual checking of newly received ornaments against vouchers
- Making Charge Master automates Supplier wise, Supplier Group wise, Item wise & Weight, Range wise making charge tagging
- Accurate value of items can be checked at the Sales Counter even by new staff by scanning a barcode
- Sales Challan generated through Bluetooth connected printers saves customers' time
- Description entered in Prefix-Master gets printed immediately on scanning the barcode
- Effortlessly open additional cash counters
- In-built feature gives jewellery insurance where entries are recorded on insurance portal immediately
- Transparently open weight or amount wise gold schemes, with passbook Printing
- Easily track self-order, customer-order and repairing items
- Detailed BoM helps jeweller plan & issue items to Kairgars
- Batch wise working for bulk stock management and travelling solution for wholesalers
- Track salesman wise sale to monitor performance & provide incentives
- Ornate Standard makes all Statutory Compliances available on time

Ornate Standard is like a magical lamp, Whatever basic functionalities are required to run a retail/wholesale jewellery, Ornate Standard fulfils.

1000+ man years of IT experience

25+ years of rich insights into the jewellery industry

Reliable infrastructure

Customer centric approach

Qualified, experienced team

Pan India customers
